

base/CurrentThread.h

```
graph TD; A[base/CurrentThread.h] --> B[unistd.h]; A --> C[sys/syscall.h];
```

The diagram illustrates a header file dependency. At the top, a box labeled 'base/CurrentThread.h' has two blue arrows pointing downwards to two separate boxes below it. The left box is labeled 'unistd.h' and the right box is labeled 'sys/syscall.h'. This indicates that 'base/CurrentThread.h' includes both 'unistd.h' and 'sys/syscall.h'.
